Target version:	2.2.66.0		
Found In Version:	2.0.62.2		
Description			
1. Load the attached save. 2. Put the Enchanted Seed in the tree trunk to the east 3. Give the Poisoned Crusader at x the cure			
Observed			
The Poisoned Crusader hands over a seal of Caelar and leaves.			
Expected			
The Poisoned Crusader should give the poison cure to the other crusaders, the mustard jelly should spawn, and the quest should finish.			
Note			
Internal report #22676			
Save has seen Ferrusk killed instead of completing his request (obtain a myconid bloom sac).			
If you complete the steps in that order the Poisoned Crusader will just get up and leave, he won't give the poison cure to the other crusaders, the mustard jelly won't spawn and the quest won't finish(you get the Seal of Caelar but no xp and it still shows up white in the journal).
